

- 1 teaspoon lemon juice
- 3 teaspoons baking powder
- 1 cup sugar
- 1 cup mashed bananas
- 2 cups sifted flour
- « cup chopped grass
- « teaspoon salt
- 1 cup chopped nuts

Mix the shortening and sugar, beat eggs, and add to mixture. Separately mix bananas with lemon juice and add to the first mixture. Sift flour, salt, and baking powder together, then mix all ingredients together. Bake for 1 – hours at 375°

Sesame Seed Cookies

- 3 oz. ground roast sesame seeds
- 3 tablespoons ground almonds
- – teaspoon nutmeg
- – cup honey
- « teaspoon ground ginger
- – teaspoon cinnamon
- – oz. grass

Toast the grass until slightly brown and then crush it in a mortar. Mix crushed grass with all other ingredients, in a skillet. Place skillet over low flame and add 1 tablespoon of salt butter. Allow it to cook. When cool, roll mixture into little balls and dip them into the sesame seeds.

If you happen to be in the country at a place where pot is being grown, here's one of the greatest recipes you can try. Pick a medium-sized leaf off of the marihuana plant and dip it into a cup of drawn butter, add salt, and eat.

161.Peanuts by the Jolly Roger

Try this sometime when you are bored!

- 1.Take one pound of raw peanuts (not roasted!)
- 2.Shell them, saving the skins and discarding the shells.
- 3.Eat the nuts.
- 4.Grind up the skins and roll them into a cigarette, and smoke!

You'll have fun, believe me!

162.Chemical Fire Bottle by the Jolly Roger

This incendiary bottle is self-igniting on target impact.

Materials Required

Material	How Used	Common Source
Sulphuric Acid	Storage Batteries Material Processing	Motor Vehicles Industrial Plants
Gasoline	Motor Fuel	Gas Station Motor Vehicles
Potassium Chlorate	Medicine	Drug Stores
Sugar	Sweetening Foods	Food Store

- Glass bottle with stopper (roughly 1 quart size)
- Small Bottle or jar with lid.
- Rag or absorbent paper (paper towels, newspaper)
- String or rubber bands

Procedure:

- 1.Sulphuric Acid MUST be concentrated. If battery acid or other dilute acid is used, concentrate it by boiling until dense white fumes are given off. Container used to boil should be of enamel-ware or oven glass.

CAUTION: Sulphuric Acid will burn skin and destroy clothing. If any is spilled, wash it away with a large quantity of water. Fumes are also VERY dangerous and should not be inhaled.
