

Take one of those tubes of glow in the dark stuff and pour the stuff on whatever you want to throw and when it gets on the victim, they think it's some deadly chemical or a radioactive substance so they run in total panic. This works especially well with flower bombs since a gummy, glowing substance gets all over the victim.

#### 5. Fizzling Panic

Take a baggy of a water-baking soda solution and seal it. (Make sure there is no air in it since the solution will form a gas and you don't want it to pop on you.) Then put it in a bigger plastic bag and fill it with vinegar and seal it. When thrown, the two substances will mix and cause a violently bubbling substance to go all over the victim.

### **66. A Guide to Hypnotism by The Jolly Roger**

*What hypnotism is?*

Hypnotism, contrary to common belief, is merely state when your mind and body are in a state of relaxation and your mind is open to positive, or cleverly worded negative, influences. It is not a trance where you:

- Are totally influenceable.
- Cannot lie.
- A sleep which you cannot wake up from without help.

This may bring down your hope somewhat, but, hypnotism is a powerful for self help, and/or mischief.

*Your subconscious mind*

Before going in further, I'd like to state that hypnotism not only is great in the way that it relaxes you and gets you (in the long run) what you want, but also that it taps a force of incredible power, believe it or not, this power is your subconscious mind. The subconscious mind always knows what is going on with every part of your body, every moment of the day. It protects you from negative influences, and retains the power to slow your heartbeat down and stuff like that. The subconscious mind holds just about all the info you would like to know about yourself, or, in this case, the person you will be hypnotizing. There are many ways to talk to your subconscious and have it talk back to you. One way is the ouja board, no its not a spirit, merely the minds of those who are using it. Another, which I will discuss here, is the pendulum method. OK, here is how it goes. First, get a ring or a washer and tie it to a thread a little longer than half of your forearm. Now, take a sheet of paper and draw a big circle in it. In the big circle you must now draw a crosshair (a big +). Now, put the sheet of paper on a table. Next, hold the thread with the ring or washer on it and place it (holding the thread so that the ring is 1 inch above the paper swinging) in the middle of the crosshair. Now, swing the thread so the washer goes up and down, say to yourself the word "Yes" now, do it side to side and say the word "no". Do it counter clockwise and say "I don't know". And lastly, do it clockwise and say "I don't want to say." Now, with the thread back in the middle of the crosshair, ask yourself questions and wait for the pendulum to swing in the direction for the answer. (yes, no, I don't know or I don't want to say...). Soon, to your amazement, it will be answering questions like anything... Let the pendulum answer, don't try.. When you try you will never get an answer. Let the answer come to you.

*How to induce hypnotism*

Now that you know how to talk to your subconscious mind, I will now tell you how to guide someone into hypnosis. Note that I said guide, you can never, hypnotize someone, they must be willing. OK, the subject must be lying or sitting in a comfortable position, relaxed, and at a time
